The County Nominations.

The Republican county nominations, which we present this morning, are admitted by all to constitute the strongest ticket ever presented to the people of Milwaukee. Every man on that ticket is one of positive character, well known to the community as honest and efficient. The action of the Convention, which made the nominations, was marked by a unanimity seldom seen in similar bodies, and the result, when the ticket was made known outside, was gratifying indeed. Every Republican seemed endowed with a new energy and determination to do his share of the work towards securing the election of that ticket. Local circumstances have rendered it highly important, with a view to success, that capable and trustworthy men should be presented for the suffrages of the people of this county, and it is with pride that we can point to the nominations made yesterday, and say, BEHOLD THE MEN!

Work to be Done.

There is work for the Republicans of Milwaukee County to do now. We have the names of the candidates before the people, and it only remains to elect them. Elect them we can, if we have the will to do it. A strong determination is as potent in politics as in business. It won't do to sleep over the work. We must be up and doing from now on. If there are any sleepy Republicans in our ranks, and we are sorry to say there are, we hope the importance of the cause, the excellence of the nominations, and the promise of success, will awaken them throughly. RALLY, Republicans of Milwaukee County!!

For Sheriff.

Mr. Phelps, the nominee for Sheriff, is the proprietor of the Phelps' House in the Second Ward. A staunch Republican, and long known to the Milwaukee people as a gentleman of lasting integrity. His position in the Common Council has displayed many of the very qualities so essential in a public officer. Mr. Phelps has resided in Milwaukee nineteen years; has grown with its growth, and become identified with its interests. His character is above reproach, and his political record unblemished. No better man could have been selected to lead the ticket, and it only remains for the people to see to it, that he is elected.

A Retraction.—We are glad to find one Democratic paper with self-respect enough to do something like justice to Mr. Schurz.—The Cleveland *Democrat* (Breckinridge) says that some days since it published the extract from that gentleman's Springfield speech, which has become so famous. "It seems," says that paper, "that Schurz was commenting upon a speech of Mr. Douglas, and gave what he claimed was a fair deduction from the Little Squatter's speech, comprised in the obnoxious sentiments which, clipped from their context, and without a word of explanation, makes Schurz the utterer of sentiments as his own. The facts being, in brief, as we state them, Schurz is entitled to the correction from all who published the extract, which we did, believing it at the moment genuine. The fellow who first cut it out and published it, did a contemptible act, in comparison to which the robbing of a henroost is virtue, for want might be plead as an excuse for the latter, while for the other no excuse can be offered."

The N. Y. *Express* is firmly of the opinion that the new coalition ticket in that State, may just as easily get a majority of 50,000 as 5,000. No one doubts it. A Frenchman once attempted to walk after his head was cut off—and the only difficulty he encountered was in taking the first step!—To get that 5,000 is the sticking point.

A Man whose Heart can be Seen.—Vienna has lately been visited by a phenomenon in human nature. Here is a man with his heart laid bare for the inspection of his fellow men. The breast bone and ribs, owing to a strange malformation, not arching, over, as usual, the central organ of the body the thin covering of the skin allows the heart to be easily discerned in its contiguous stages of action. So slight is the texture of the skin, that the ebb and flow of the blood and the regular contraction of the two chambers are palpable to the sense of both sight and touch. Herr Eugene Groux, from Hamburg, for this is the name of the individual, has increased the experimental signification of his own *corpus* by the application of an electric apparatus, showing the time taken up in the several actions of the member in question. Each time the heart pumps up the life fluid, a bell rings. This *lusus naturæ* has been the object of great curiosity, not only the to members of the medical profession, but to the public generally.—He has been paraded in all the hospitals and colleges.

Baron Renfrew at Harrisburg.

Harrisburg, Pa., Oct. 3—2 P. M.

Baron Renfrew and suite arrived here at 11 o'clock last night. At all the important points along the road, great crowds collected to see the train pass. At all places where the train stopped, the Prince showed himself upon the rear car, much to the gratification of the assembled crowds.

Descending the mountain, the Prince and his friends rode upon the locomotive so as to obtain a better view of the magnificent scenery of the eastern slope of the Alleghanies. They expressed themselves much gratified with their ride. At Altoona the party was welcomed by an immense crowd, amid much cheering and enthusiasm.

Slaver Captured.

Norfolk, Oct. 3—3 P. M.

The ship *Erie* of New York, arrived today from Monrovia. A ship was captured on the coast of Africa by the steamer *Mohigan*, with nearly 900 slaves. 860 were landed at Monrovia, and 30 died on the passage up coast. The *Erie* is in charge of Lieut. Dunnington, who has 3 prisoners, supposed to be the Capt. 1st and 2d mates. The *Erie* reports the frigate *Niagara* arrived at Loando, on the first week in August, with all on board well.

Board of Commissioners.

Boston, Oct. 3—3 P. M.

The fifteenth annual meeting of the American Board of Commissioners for foreign missions was called to order in Tremont Temple, at four o'clock this P. M. Rev. Dr. Hopkins, President. After prayer and singing, the Treasurer's report was read, acknowledging $429,000 received, cancelling the debt of $6,600, and leaving over $1,400 in the treasury. Reports were read by the Secretary, concerning the Missions, which are generally prosperous.

New York State Fair.

Elmira, Oct. 3—3 P. M.

The crowd at the State Fair to-day is very great, the weather very fine and the exhibition splendid.

The Great Seward Demonstration.

Over One Hundred Thousand Strangers in the City!!

The Streets Alive with Wide-Awakes!

IMMENSE CROWD AT THE WIGWAM!

AN ARMY WITH BANNERS!!

THE GREAT SPEECH OF SENATOR SEWARD IN FULL!

TORCHLIGHT PROCESSION OF TEN THOUSAND WIDE-AWAKES!

The City in a Blaze of Glory!

From the Chicago Democrat of yesterday.

By sunrise yesterday morning the trains began to arrive with deputations from the country towns. All the forenoon the streets were thronged with a living tide of humanity. Wide Awakes in their parti-colored uniforms met one at every step, until it seemed as if every person belonged to that inevitable organization. Men, women and children, laden with shawls and carpet bags, poured from the depots to the hotels in one unceasing tide. All of the hotels and lodging houses were taxed to their utmost to feed the vast array. Add to this the constant din of drums, fifes and bands, and it seemed that the city was invaded. We have witnessed no such excitement and enthusiasm before.

THE SCENE AT THE STAND.

The stand from which Gov. Seward was to speak was erected in front of Lind's Block, Market street. The entire street, from Lake to Randolph, was densely packed with humanity. The crowd assembled there immediately after dinner, and continued to augment in number until every available and unavailable spot of standing room was occupied. The roof and windows of the Wigwam, and the roofs and windows of the buildings on the opposite side of the street, were also filled with people. At a very moderate estimate the number of people within the sound of Mr Seward's voice was not less than 40,000; while a number equally great filled the streets and sidewalks on each side of the square devoted to the speaking.

At about half past two the firing of the salute announced that the cortege escorting Gov. Seward had begun to move, and the fever of excitement and expectation among the multitude rose to fever heat. At about this time numerous companies of Wide Awakes joined the crowd, and their varied and gay uniforms, scattered among the crowd, added greatly to its picturesqueness and beauty. One of these companies, that of Capt. Kenyon, of Mount Palatine, La Salle Co., numbering 30 men, carried a representation of Lincoln engaged in splitting rails, which caused much amusement among the crowd.

The procession of Lincoln Rangers, numbering some two hundred men, escorting the carriage containing Gov. Seward, Lieut. Governor Patterson, Gen. Nye and Mayor Wentworth, then penetrated its way thro' the crowd, and these gentlemen, amid the cheers of the multitude, ascended the platform.

So vast was the assemblage now, that it was evident that the lungs of no man were sufficient to enable him to be heard by even one-quarter of the people. The multitude surged to and fro, like the waves of a great sea, and the eagerness of the people to obtain a view of Gov. Seward was so great that an "irrepressible conflict" for the accomplishment of that end ranged furiously for many minutes.

Mayor Wentworth at length succeeded in restoring order, and briefly addressed the people, informing them that owing to the impossibility of the entire assemblage hearing Gov. Seward, another meeting would be organized in the Wigwam, which would be addressed by Gen. Nye, Owen Lovejoy, and others. He asked the people to preserve perfect order—as only in this way could they be at all able to hear; and said that as the speech of Gov. Seward would be published in the morning, every one could read it. He then introduced Gov. Seward, who spoke as follows:

GOV. SEWARD'S SPEECH.

Hail to the State of Illinois, whose iron roads are the spinal column of that system of international, continental inland trade which surpasses all the previous commerce of the country, and which has no parallel on the face of the earth!

Hail to Chicago, the brain which through that column regulates the entire nervous system of that commerce, last and wonderful of all marvels of American development!

Hail to that council chamber of the Republican party of the United States; simple and vast in its proportions, fully adapted by its vastness and simplicity to the use for which it was designed—the spot where the representatives of freemen formed the public creed to restore a disordered nation. Wo be to him who shall substract one word from that simple, radical, truthful and sublime creed, so full of healing to a nation diseased.

Hail to the representatives of the Republican party placed on the platform of its creed. Success and honor to those representatives, chosen and commended to make that creed the policy of the nation. Worthy and true men are they. Happy he whose vote swells the tide of their success! If he be an old man, he shall bequeath to his sons the virtue of his experience. If he be a young man, he shall tell his children, with pride, as he refers to it in after years, that he voted for Abraham Lincoln.

That creed is no merely partizan one. It is a national faith because it is the embodiment of the one living, life-maintaining, life-expanding, life-prolonging idea of the American Republic. What is it? It is that civilization is to be wrought out upon this continent by federal legislation, based on the principle of free thought, free labor and universal suffrage. It is no new idea. It had its boldest and clearest utterance in the first words spoken by this nation when it took its stand before the world, and asserted its independence in the fear of God and with the consent of mankind. Its enemies were those who should oppose it in war, and its friends those who should cultivate its peace;—"We hold these truths to be self-evident, that all men have a right to life, liberty and the pursuit of happiness."

This great national idea has been working out its mission ever since. Its work is seen in its acceptance by eighteen of the thirty-four States of the Union; or seventeen of the thirty-three, if Kansas be counted out. It is also asserting itself in the progress of the Northwestern States of this continent, and the advance of Republicanism in Europe, where we see nations waking into new life, and people asserting their rights in the face of the opposition of tyrants and their despotic laws.

Why is this idea so progressive? because it is the inextinguishable idea of human nature itself in every age and in every clime. But this national idea works not unopposed. The good and virtuous in nature and society have the evil and vicious as antagonists. The idea that there is no irrepressible conflict is a delusive idea. As long as human nature exists that conflict will exist. It is part of the economy of human life and human progress. It is being fought out in these United States, between freedom and slavery. In that fight, battling on the side of freedom, is your candidate and mine—Abraham Lincoln?

Can it be, then, that such a creed as ours, needs exposition or defence.

If it does need exposition or defence, it is only here, among ourselves. In England, Ireland Scotland, France, Russia, Turkey, Asia and Africa, there is not one man so ignorant as not to comprehend, or so base as not to confess its justice and its excellence.

Our creed ought to need exposition less here than elsewhere. For here we can see the land made miserable by the low, black rivulet of African labor, nearly motionless, as it is drawn along from the stagnant and pestilential pool of slavery. We can see how inadequate it is to irrigate with healthy and wholesome effect, a continent, and how all that is on its banks droops and withers.—On the other hand we see the broad flood of free labor, pouring from lake and river, gathering volume and power as it rolls; and know that no other field than the whole continent could absorb it, while magical fertility everywhere borders its banks.

We sometimes have bantering propositions to give out our moral or political work by the job. Let us imagine there could be found one man bold enough to take by the job the work of establishing perfect civilization over this entire continent. He would want to do it quickly and cheaply—at the least cost and with the greatest speed.—Would he, or any one, accept slave labor as an agency in the work? Would he dream of importing barbarians from Africa, or holding their descendants born in this country in chains, and by their forced labor building up here a confederacy of slave States? Would he not, on the contrary, accept free labor as his agency in the accomplishment of this work, and employ the thought and skill of enlightened freemen, as we claim ourselves to be, received as his co workers, free men, wherever born, and of whatever nationality.

I care not when reckless men, under the heat and passion of prejudice, say that it is a matter of indifference to them whether slavery is voted up or voted down There is no man who, in his conscience, is indifferent on the subject of human bondage. No patriot man would not abate a material portion of his fortune if thereby he could be assured that he could convert this land from a slave-holding confederacy to a free country. I know this because every man demands freedom for himself, and refuses to be a slave. No man who is a master would consent to be a slave—and every slave desires to be free. No man whose conscience is unperverted, does not reject the idea of commerce in men, and argue that he who cultivates the earth is entitled to the fruits it yields. The executioner is always odious—although necessary in the administration of justice. We admit that the criminal should suffer—but we turn in abhorrence from the headsman. So the slaveholder turns with disgust from the auctioneer who sells the men and women he has held in slavery, although he receives the profits of the sale into his own treasury.

I know that this national creed of ours is just, because human nature has never honored a man who reduced another man to bondage. The world is full of monuments to the liberators of mankind from slavery—but where shall we find the commemorative shaft to the oppressors of mankind?

Why, then, is it that this Republican faith, so pure, so peaceable, so full of good works, so easy to be entreated, so respected and so confessed, is as yet rejected by the American people? We approach the true answer to this question by asking if the Church of Jesus Christ is not pure, peaceable, and full of good works, and easy to be entreated? And yet, is not the Church of Christ still a church militant in the world? Is not the world very far yet from being converted to Christianity? Alas, that it should be so.

The Church answers this question by saying that men love darkness rather than light, because their deeds are evil. I will not say this of my countrymen as regards their action on the question of slavery. I know better. I know the deeds of my countrymen are not evil, but good, and that they love the light, and not darkness. They are in the frame of mind of the Roman Governor, who, while listening to the eloquence of Paul, was almost persuaded to be a Christian. Almost are they persuaded to be Republicans. Why are they not altogether persuaded?

The answer needs reflection. It involves an examination of our nation's history. One reason is, that the mind of the nation was early perverted on this subject. We inherited slavery. It was incorporated into our national life and form of government, and we became habituated to it. We became used to it, and accustomed to tolerate it.

The effect of this has been to produce a want of moral courage. This was not so much, in the first place, the fault of the people, as of their political representatives. For you might select as your representatives in Congress men apparently as faithful to freedom as Owen Lovejoy is, and on the first blast of the slavery trumpet they would begin to waver and falter. They suffer themselves to be demoralized by slavery, and they return to the people to demoralize them in return. Slavery never hesitates to terrify the timid, and it has other arguments than terror to persuade those whom they cannot terrify. You know that slavery has long been a controlling power in the executive departments of the government, and it has used that power to punish its enemies and reward its friends. Slavery has its interests to maintain, and has organized power at its command. It discourages, disheartens and demoralizes. All representative men are naturally ambitious. They desire fame, if not pecuniary reward, and they like applause.

When a people thus becomes demoralized, the man who resists the overwhelming pressure of the demoralizing interest looses his position; and the community chooses some one to fill his place who will be less obnoxious to the prevailing influence of the time.

Thus demoralized, the representatives of the people began to inculcate the lessons they had previously learned; and to inaugurate a system of compromise. They saved themselves first and let freedom take her chances for the rest. A people thus demoralized is fearful to look back upon its record, to see what departures it has made from the right path; and dreads to look forward to the consequences of its course.

We shall see, in a moment, what fearful sacrifices of justice and right have been made by this demoralization of our Government.

1st. Arkansas and Missouri were surrendered to slavery, and by implication all of the territory acquired from France south of 36 deg. 40 min. north latitude. Take up your map, and see what a broad belt of country south of that line was thus given up to slavery.

2d. All the peninsula of Florida, acquired from Spain, was surrendered to slavery, rendering it useless for the purpose for which it was acquired—making it a burden instead of a benefit, a danger instead of a defence.

3d. Texas was surrendered to slavery, with the gratuitous guarantee that out of its domain four slave States might be formed.

4th. Utah and New Mexico were surrendered to slavery, and the condition of these Territories changed from their normal state of freedom to that of slavery.

5th. Next came the abrogation of the Missouri Compromise, by which it had been stipulated that all north of the line of 36° 30; should be saved for Freedom; and this domain was surrendered to Slavery if she could get it.

6th. As a consequence of this came the refusal or neglect of the federal administration to admit Kansas as a state, because she would not accept slavery.

7th. After this demoralization had been thus carried out, what right had the nation to be surprised when the President and the Supreme Court declared that the Constitution is a Constitution of slavery; and that slavery is the normal condition of every inch of territory over which our flag waves, not organized as a State. That is to say, that wherever our flag floats—that flag which we are accustomed to vaunt so highly—there is land not of Freedom but of Slavery.

Thus it has followed that up to 1854 all the unoccupied portion of our Territory, was surrendered to Slavery, and Freedom was excluded from her heritage.

Joining in the demoralization thus spread over all our land were all political parties and all christian sects. To obtain office it became necessary that the candidate should be tolerant of slavery. To retain eminence and position in an ecclesiastical organization Slavery must be apologized for and defended. So that up to 1854, Slavery had party upon party, and church upon church, enrolled under its banners; while Freedom had no party and no sect. Every party proved faithless to Freedom—every sect proved false.

Now, a people who are demoralized are easily operated upon, and easily kept in error. The first agency used for perpetuating this reign of slavery was that of terror: fear of civil commotion and of civil war. The slaveholders naturally and truthfully assume that slaves are natural enemies to those who enslave them, and to the State that holds them in bondage. They regard them as insidious enemies, and insidious enemies are always dangerous. Thus in every slave State freedom of speech and debate is abridged or abolished because it would tend to enlighten and arouse the slaves—the enemies of the State. Hence laws are framed which give a free field to the defenders of slavery, but which close the mouth of its opponents.

The lack of freedom of speech is followed by the deprivation of the freedom of voting; so that in 1856 there was no ballot box opened in any slave State in which a voter could record his protest against the system of slavery. Now if only one side is allowed to vote in any community, it is easy to see that that side must conquer. Voting to be done at all must be done safely—and in our day martyrs are not numerous.

But the Slave States were not content with this exclusion of debate, and of free speech at home; but they required the free States to accept the same system; because they allege that if we tolerate discussion on this topic we encourage the slaves to sedition, and apply the torch to Southern homes. This argument might have failed to reach us, as we are safe here, but they brought it home to our fears by saying they preferred slavery to union, and that if we would not allow them to extend their system of suppression of free speech over us that they would dissolve the Union; and that we all must suffer in one universal desolation.

There were but few men so devoted to freedom that they would consent to a dissolution of the Union. The Union is a benefit in itself, and we must bear and forbear, and wait for a better time, if that time ever comes, when this question could be settled without the dreadful alternative of the destruction of the government.

Now you see how this has worked in the demoralization of the Government. The Governor of Massachusetts, less than thirty years ago, recommended the Legislature of that State to enact that anti-slavery meetings should be dissolved by the police. The Governor of New York who preceded me made the same recommendation to the people of that State. What were thus recommended as necessary laws became afterward established in practice. For twenty three years there was a period when no public meetings for anti-slavery discussion could be held. What wonder is it, then, that in Congress from 1840 to 1850, all anti slavery petitions were crushed under foot, until John Quincy Adams gathered a party around him who restored freedom of debate. What wonder is it that last year the government abandoned the federal mails to inspection by slave owners—so that they might abstract and commit to the flames every word any man might utter against slavery.

This is your government. This is your condition. I wish to be truthful—and I am sorry to say I have no special compliments to pay you in this connection. For the first protest against slavery that came from Illinois was in 1855, after all the concessions I have enumerated had been made.

In 1850 you sent two Senators to favor the Wilmot Proviso. They voted for it under instructions—and then voted against it, being under no compulsions, as they imagined, to vote for it at the decisive moment. You made no protest against this; but then Douglas demanded one more concession for freedom—the surrender of all our territory to slavery, and you sent a noble Representative, Judge Trumbull, to rebuke him for it. (A voice: we will send him again!) Yes, send him again; you can do no better.

I marveled when I saw this vast assemblage, how it would have been if I had come here in 1850 —or even so late as the time of the abrogation of the Missouri Compromise. But let bygones be bygones I have seen the day when I had as little firmness as you then had.

You made these concessions because you thought you had to choose between slavery and the Union. When this was believed, how odious it was to be an anti-slavery man, when to be an anti-slavery man was synonymous with being a traitor. How natural it was to believe slavery right and necessary. How natural was this when the entire church lent its support to the column of slavery. How extensive this proscription is, you will understand when you remember that there is no man who can receive at the executive hands an office from a tide waiter, up to that of a Secretary of State, unless he is devoted to slavery. How could you expect that a people, every one of whom is born with a chance to become President, could resist this demoralization, when every path to honor and emolution was closed to those who were true to freedom, and every prize offered to those who would betray her.

Above all this, our constitution was so established that we had a judiciary that was infallible and could not err. And when that judiciary, backed up by the army and navy, which, through the executive, can be called on to enforce its decrees, declared that every effort made for freedom is treasonable, and punished as a crime of natural sympathy which was felt for the oppressed, while it could not bring to justice one single slave pirate out of the thousands who infest our shores; how could you expect a simple minded, agricultural people to be so much wiser than our Court, our Judges and our Presidents?

We have now come down to the time when this demoralization seemed most complete. How absolute it seemed you may judge, when I say that Horace Mann, that pure and noble-minded man, told me that he despaired of the cause of humanity. In 1854, after the repeal of the Missouri Compromise, there was but one man who yet hoped, and that man, in his great zeal to make his prediction true, was betrayed into fanaticism, became a monomaniac on the subject of anti-slavery, and suffered under the gallows.—That man was John Brown.

The only time I ever saw him was when he called upon me in 1854, after the repeal of the Missouri Compromise, and when I despaired of the future liberty of the Republic. Said he, "Cheer up, Gov. Seward; Kansas never will be a Slave State." [Loud and continued applause.]

There I surveyed the field. I saw, I examined and considered all the political forces that revealed themselves to me. I saw that freedom in the future States was a necessity of the country. I saw that the establishment and safety of this Republic as a free government was the necessity and the cause of the whole world. I saw the emigrants from the Eastern States and the Old World passing westward. I saw men, women and children crowded out of the East into the new domain of the West. I saw them planting a township in a day—a State in three years. I knew that thoughtless and ignorant as these people might be, they would feel the necessity of owning the land they tilled, and of preventing the slave from coming into competition with them. So, as they passed by me, steamboat load after steamboat load, railroad train after railroad train, I said to myself, all these will become American citizens; they will build up new States and these will be free States. I knew they had the instinct of interest and the instinct of justice. I said "I will trust them! the exile and the laborer; Henceforth will I place my trust in the poor and not the rich—the humble and not the great. I said, with pain and reluctance, I will trust, not in my own countrymen, but in the exile. He is not habituated to Slavery; and has felt the lash of tyranny in his own person." True, I was often painfully deceived in the emigrant.—The Irishman failed me; and the German seemed dull, and lethargic and stupid; but nevertheless I said the interest and instinct of those people will bring them out, and when the States which they form come in, they will come in free States.

And then I looked one step farther, and saw how all could be redeemed by appealing to the same policy that had lost all. Slavery had demoralized by bestowing offices and honors upon her adherents, and withholding them from her opponents. I said, I will build up more Free States than Slave States; and they shall offer to Pennsylvania and New York their support for their ambition; and to-day I can get you advocates for freedom as bold and as earnest as were the advocates of slavery but a few years ago.

And when I saw the South demoralizing the North by offering us her trade, I said, in these new Free States of mine there shall be men who will buy our silks and our trinkets, if we will not betray our principles.

You may have heard that I have said the last Democrat was born. I say so now, with the qualification, as before, that Democrat means one who will maintain the present principles of the Democratic party. I say this for the simple reason that Democracy will no longer pay, and that Democrats will not work for those who do not pay. I propose hereafter to pay Democrats as much as slavery can do.

But we had no party for this revolution. The Democratic party was the natural ally of slavery. The old Whig party was not safe for freedom. The thing necessary was to dislodge men enough from the existing parties to form the Republican organization. And for this we are indebted to your Senator, who, by his repeal of the Missouri Compromise, disintegrated the existing parties, and set men at liberty again to vote as right and truth would dictate.

Still we wanted an occasion. This came when the Democratic party, the remnant of the Whig party, and the American party refused to allow Kansas to exercise that perfect freedom which they had pronounced to her.

Thus we had the material and the occasion; and the Republican party sprung into existence at once, fully armed.

I will not do evil that good may come—for I know the evil is certain and the good conjectural. But no man ever rejoiced over the birth of his first born more than I did, when I saw the madness and folly which attended the repeal of the Missouri Compromise, and the rejection of Kansas because she would not be a slave State. These were the acts of Presidents, Congresses, and of Courts, but when the Republican party organized itself, I said, "This is the work of the People." How much I was cheered when I saw that all the advantages of slavery were gained by frauds, by suppression of the will of the people, and by illegal voting, while freedom gained California, Minnesota and Oregon honestly, you may remember by the songs of joy I raised, not so eloquent as that of Miriam, but as heartfelt, when I exclaimed "the battle is ended and the victory is won."

The battle *is* ended, and the victory *is* won. Why, then, I am asked, do we not retire from the field? Simply because if the victors retire, the enemy will come back, and the battle will not be won.

The Republican party will complete this great revolution. I know it will,

1st. Because it clearly perceives its duty. The creed which issued from that grand council chamber (the Wigwam) embodies the great idea of freedom with which I began.

2d. I know the Republican party will do its work, because it has the right spirit and embodies the necessary forces; augmenting daily, even in the slave States, and waiting only until the establishment of a Republican administration shall render it safe to express the sentiments of its adherents in the slave States.

Above all, the Republican party has chosen the right line of policy—a policy of augmentation and of suffrage; not of force, but of reason. It returns kindness for anger, increased loyalty for disloyalty, patience as becomes the strong in contention with the weak. It leaves the subject of slavery in the States to the responsibility of slavery in the slave States; believing in the Constitution, which makes the States sovereign in this respect, and trusting to the correction of public sentiment in the slaveholding communities.

I know that the Republican party will succeed, also, because it is a positive and active party, and the only one that can be so called. The other organizations are without true characteristics of a party. Try them by their candidates. Lincoln represents a party which declares that not one more slave shall be bro't into this country from Africa, and that the Territories shall be reserved for freemen. If you elect him the world will know what you have done.

Take the case of John Bell. He is a learned, kind, good man. I esteem and respect him. But what does he and his constitutional party propose? They propose to ignore the subject of slavery together. They may ignore it until after they get him elected, supposing that possible for the sake of the argument. But then Kansas will come, and the Indian Territory will come, and the other Territories, and all you will have done will be to postpone the settlement of this vexed question for four years, and postponing it will not settle it.

Take Breckinridge then, who represents the very opposite of our party, and elect him, and what have you done? He is pledged to extend slavery—but that is only what Buchanan has been doing for the last four years; and will that satisfy the people? If Breckinridge is elected, you will only have a repetition of Buchanan's administration, and a combination of all parties to turn him out again, and thus you only postpone this question for four years longer, to a later, and perhaps, a more bloody and fatal settlement.

Now for Douglas. His is not a positive party. Like Bell, he proposes to ignore the questions in Congress. That is just what the people won't do. If the people of the Territories settle the question for slavery, are the people of the free States willing to submit? If they are, why was not Kansas admitted with her Lecompton Constitution? If the people settle the question for freedom, will the representatives in Congress submit? But Douglas says it is immaterial to him whether slavery is voted up or down. Well they will vote it up in one Territory, and vote it down in another. This will be a compromise—but will this satisfy anybody?

I have said the Republican party is the only positive party. It has one faith, one creed, one baptism, one candidate, and will have one victory. The opposition parties have three faiths, three creeds, three baptisms, three candidates, and will have three victories. They confess they don't expect to obtain a single victory. Their only hope is to defeat us, and to take the chances as to who shall have the fruits of the defeat.—Suppose, by their combinations, they should obtain your defeat, are you going to stay defeated? Suppose we are defeated by a coalition? Did any one ever know of a cause that was finally lost by a coalition among its enemies, unless everything was staked upon the result of a single campaign? The more coalitions are necessary, the more they are not effectual.

But the explanation of the whole matter is that there is a time when nations require and demand a settlement of contentions; and the time has now arrived for the settlement of this controversy between freedom and slavery. The free States and the slave States both demand it.

There is but one way to do it. The Republican party is the agent, and its success will settle the controversy. Let Kansas be admitted as a free State, and not one slave will thereafter be carried into a territory of this Union; and that will end the "irrepressible conflict." This will be done, because it is necessary to be done.

This is not merely a question of policy, but a question of moral right and duty.—We believe it to be wrong to extend slavery, and it shall not be extended. Freemen of whatever race are men; they have a natural right to be men. But in the estimation of the other party they are only merchandize. With them the slavery question is only a kind of a tariff question. With us it is a question of moral right and duty. Therefore, if it be settled in favor of freedom, it will stay settled.

But if the question be taken merely as a question of policy, it will be settled in favor of Republicanism. For our policy is the establishment of free labor. The only hands that can dig our coal and iron from the mines are the hands of freemen. The destiny of this land is that of a land for free men.

But I seem to myself to have sunk below the dignity of this question, in discussing whether free or slave labor is the more expedient.

Let me rise to it, once more, and remind you that we are building a new empire; not as modern Rome, and Paris, and Naples are built, over the countless graves of forgotten generations; but on a soil where we are the first possessors and the first cultivators. The combs and catacombs of these capitals are filled with impliments of torture, showing the ignorance and barbarity of their rulers.—Let us, on the other hand, build up an empire that will leave no trace and no remembrance to prove that we were ever false to humanity. Human Nature is entitled to have one nation that will truly vindicate and defend it. What nation shall that be if it be not America?

People of Illinois! People of the great North-West, you are youthful and vigorous. Your States are youthful and vigorous. The hopes of mankind and of humanity rest upon you. Rise to the dignity of that consideration. There will you have peace and tranquility throughout your lives; and the world, in future generations, will rise up and call you blessed.

THE SCENE AT NIGHT.

Last evening there was an era in the history of Chicago. The gathering of the Wide-Awakes, both from here and abroad, was the greatest that has ever assembled in any one place. Besides the list of the different companies which marched in procession around the city, were hundreds of others who came here singly and in squads without their leaders, and who numbered no less than from twelve to fifteen hundred. The procession was over two miles long, in double file, and presented a sight grand above description. Ten thousand torches were blazing at one time in our streets, and shed a light by which persons at a great distance could plainly read and write. Both foe and friend have freely acknowledged to us, that its equal was never seen in the United States.

At six o'clock the different Wide Awake companies began to form at their respective head quarters, and at half past six began to march to the general rendezvous on State street. The companies met and marched from the corner of Washington street to Randolph, up Randolph to Michigan avenue, down Michigan avenue to Twelfth street, down Twelfth to Clark, up Clark across the bridge to Kinzie, turning down that street up to North Wells, back across the street down to Lake, up to Lake back to Clark, and then to the south side of the Court House.

All along the route many houses were splendidly illuminated, among which we noticed the Tremont House, the City Hotel, the Orient House, the Lake street Iron Block, occupied by Messrs. Huntington, Wadsworth & Parks, and others. There are many more, which for want of room we cannot name.—Suffice it to say, that our citizens were by no means backward in showing their liberality upon this glorious occasion.

The explosions of fireworks were continuous. A dense mass of our citizens were congregated on the sidewalks upon the route which the Wide-Awakes passed, and cheers after cheers rang upon the air as the noble companies passed. We noticed with pride and with a great deal of satisfaction, several of our "Young American Clubs" parading in common with their older brethren, and showing no signs of fatigue. They kept up their line of march, and at the Court House were the last that left.

At half-past nine last evening, the Wide Awakes, after parading through the principal streets of the city, congregated around the south side of the Court House, there to compete for the Banner. The judges, who were Messrs. Steele, Hoard and Kinzie, after due and careful consideration, awarded the banner to the Wide Awakes of the town of Libertyville, Curray Township, Lake Co., Ill, they having the largest number of members to the Republican vote cast at the late election. The vote stood, on the average 63 votes at the last general election. The Libertyville Wide Awakes number 72 members. The captain is R. H. French, Esq.

The following is a short description of the banner: Upon one side are names of our candidates in gilt letters, upon a blue ground; under these is a shield of the U. S. and beneath this is the watch word of Daniel Webster, "Liberty and Union." Upon the reverse is an excellent and true representation of the Wide-Awakes, as they were assembled last evening before the Court House, with the inscription, "Presented to the Wide-Awakes by the Chicago Wide-Awakes, October 2d, 1860."

4 P. M.—A Grand Cavalcade.

The election of Directors, by the Stockholders, at the office of the Executive Committee, from 2 to 5 o'clock, this afternoon.

The Horse Show.—The weather interfered materially with the exhibition yesterday, cutting up the track and dampening the ardor of the many who had contemplated a day's sport.

The same programme, however, is reserved for to day, and we shall expect to see a larger crowd than ever on hand if the weather holds good.

The Democrats of a neighboring city recently mutilated the Republican posters about the town, so as to make the call upon the "masses" read "asses." This is in strict conformity with the teachings of one of their candidates, who has labored diligently to do the same thing, but we should see with what success when the Ides of November come round.

Dissatisfaction.—The Democratic nominations meet with but a cool responce from the working men of the party. Dissatisfaction is visible everywhere. The knots on the street corners in melancholy consultation—the disappointed faces of certain "wheel horses," and the general apathy which pervades their ranks, fully attests this fact.

The *News* says the Republicans "have no principles, but are held together by the cohesive power of public plunder." If that is true, the cohesive power operates differently in the Republican case from the Democratic. Public plunder has decomposed the latter most effectively.

We are indebted to Clifford, the artist, for a very fine photograph of John F. Potter, taken while that gentleman was in this city. It is a life-like representation, and a beautiful evidence of Clifford's artistic skill.

The magnificent exhibition of the Cyclorama is to come off to night, it having been postponed last evening on account of the weather. The exhibition is for the benefit of the sufferers by the *Lady Elgin* disaster.

We understand that the Coroner was sent for to hold an inquest at Oak Creek yesterday, on the body of a woman said to have been pounded to death by her husband.—The particulars of the case have not yet transpired.

The body of Mrs. Kennedy, wife of Thos. Kennedy, was brought up yesterday to this city. Mrs. Kennedy was one of the unfortunate on board the *Lady Elgin*.

The concert of the Sunday School children, on Tuesday evening, was a success. The little ones were repeatedly encored, and all passed off delightfully.

Spring Street Bridge was rather badly stove up yesterday by the schooner *Fox*.—Nearly half the railing on the side was carried away and the iron stays twisted off.

The Chicago *Journal* avoides all allusion to the delegation of Wide Awakes, that went from Milwaukee.

Caleb Wall has a sale of shirts, drawers, gloves, neck ties and dry goods, on Friday. See advertisement.

The Madison Bogus Premium.

From the Patriot, of Tuesday.

If any one wants to see a good reason why the Republicans dare not attempt, and cannot answer our Premium questions, let him read the following in the SENTINEL, in reply to our rejoinder. Says the SENTINEL:

"The Madison *Patriot* offers to pay $5,000 to any one who would answer a certain number of questions in a consistent and satisfactory manner. We offered in the SENTINEL of Thursday last to do the same with pleasure, provided the monied-man of the *Patriot* put the money in responsible and disinterested hands, and we also offered to pick up 25 Republicans who would answer his questions for nothing."

Well, why not trot out one or two of your 25 Republicans who will do it for nothing? But the SENTINEL chooses to *haggle* about terms—says it can do it for nothing—but won't try—wants the money put up, &c., &c. Now we regard our word as good as the SENTINEL's. We make the offer in good faith, well knowing that no Republican would dare attempt to answer these questions, but we will now say to the SENTINEL men, that if it is dissatisfied with the terms of our proposition and really means "business," we will, within 24 hours upon the agreement of terms, put up the money in any good bank in this State, *provided* the SENTINEL will *ante* an equal amount to be forfeited in case it fails to answer the questions, according to the terms proposed. Now, that's *earnest* for you.

The *Patriot* accuses us of higgling about terms. That paper offered $5,000 to any one who would answer the questions. We agreed to do it for the $5,000, and only requested the amount secured. At that the honest politician takes exception, and says if the SENTINEL *men is* dissatisfied, he will put the money in bank, on condition that we do the same, to be forfeited in case we fail. This is all fudge. We don't intend to put up any money. There was no such condition in the original offer, and we regard it as a very clever quibble.

It is not to be supposed that we will "trot out" the 25 Republicans to answer the questions, when $5,000 is to be made by answering them ourselves.

ANOTHER SAMPLE.—The Albany *Argus* made a terrific "blow" over the DOUGLAS demonstration in Albany. It was the most extensive and grand that ever had been known. When the Albany *Journal* quietly convinced the *Argus* that the Democratic display fell short several hundred of the Wide-Awake demonstration a few nights before, the *Argus* concedes it as follows:

We have all heard of the man who, in order to leap over a ditch, started on a run a mile off, and was so breathless when he reached the jumping place that he had to sit down to rest. So it will be with the Republicans. They have done so much before election, in the way of vaporing and dis- [illegible] that they will not have [illegible] carry them [illegible] wind [illegible] enough to [illegible] the polls.

ESCAPED CONVICTS RECAPTURED.—The two boys who escaped from the Waupun State Prison last week, in the absence of Commissioner HEG, have both been recovered through the prompt measures of the Commissioner, and the vigilance of EMIL SMITH, one of the officers of the Prison. On receiving a despatch of the escape, Mr. HEG immediately returned to Waupun, and despatched SMITH off towards Sheboygan, who overtook the boys and captured one of them and shot at the other, who escaped. After securing the captured convict in the Prison, he returned again to Sheboygan and found the other on the beach of the lake endeavoring to find a vessel in which to take passage. He immediately secured him and returned to the Prison. Much credit is due to the officers for their promptness in the recovery, and Commissioner HEG will take measures to prevent a similar escape hereafter.

TEN BROECK IN ENGLAND.—Mr. TEN BROECK is unfortunate this year in England. His horse Umpire was sixth in the great St. Leger race, and Starke was badly beaten in the great Yorkshire Handicap, which was won by Moorhen.

The Great Seward Demonstration.

Over One Hundred Thousand Strangers in the City.

From the Chicago Journal of Tuesday.

An immense concourse of people gathered at the St. Louis, Alton and Chicago Depot, last evening, to welcome the Hon. Wm. H. Seward to this city. The train arrived on time and the distinguished party, consisting of Gen. James W. Nye, Gen. Rufus King, Hon. C. F. Adams, of Mass., George E. Baker, Esq., Miss Seward, Miss Perry, Miss Nye, and Miss Redfield, at once took seats in the carriages which had been provided. The Hon. Senator, Gen. Nye of New York, and Mayor Wentworth occupied a barouche drawn by four noble bays and escorted by the Lincoln Rangers who turned out in full force, accompanied by the mounted Light Guard Band, proceeded down Van Buren street to Michigan Avenue, followed by a dense crowd of citizens. The route down Michigan Avenue to Lake street resembled a triumphal procession. Fireworks blazed in the air while ever and anon the deep boom of cannon swelled the cheers and plaudits of the closely following multitudes.

The procession turned from Michigan Avenue to Lake street and thence to the

TREMONT HOUSE.

Here the scene almost beggars description. Lake and Dearborn streets were literally packed with human beings. The streets, the sidewalks, store front windows, balconies and house tops commanding a view of the scene, presented only dense surging crowds. As the procession reached the house, it became almost impossible to proceed, and it was only by the persistent and energetic efforts of a large posse of police, aided by the mounted Rangers, that a passage was at last cleared for ingress to the hotel. Senator Seward alighted from the carriage amid the deafening cheers of the excited crowd, and passed into the house hat in hand, gracefully acknowledging the tribute of the hearty Western welcome thus paid him.

The outside crowd in front of the north side of the hotel continually swelled in numbers, and in spite of its vastness and alarming contiguity, preserved its equanimity and patience to a wonderful degree. The north balcony, in addition to several distinguished gentlemen from abroad, was graced by the presence of the noble Lady Franklin and her niece, Miss Cracroft, accompanied by the British Consul of this city. The crowd acknowledged the presence of her whose affection the world has learned to revere by a round of honest cheers, which seemed much to gratify her ladyship.

Lady Franklin and niece met Gov. Seward before the introduction to the citizens and shook hands cordially, the noble lady at once recognizing him, having made his acquaintance in England.

Mayor Wentworth in a few moments appeared, together with Mr. Seward, and introduced and welcomed him to the city, with the following address:

SENATOR SEWARD:—In welcoming you to our city, I should do injustice to the sentiments of the friends of free labor, did I not congratulate you on the fresh laurels you have acquired by the different speeches you have made on your western tour. They have placed the devotees of human liberty under additional obligations to you, and given them new proof that you had "rather be right than be President." The truths which you have uttered with so much eloquence and directness will outlive the messages of Presidents and reproduce themselves at every attempt of Avarice to make merchandize of Humanity. They consider themselves under the greater obligations to you for the frankness and candor with which you have presented the sole issue of the day; since timid men, over anxious for success, sometimes manifest a disposition to detract from the moral force of our certainly approaching victory, by denying our faith, and otherwise lowering our standard. It was our Presidential candidate who uttered the words of prophetic truth, that these United States must eventually all be free or all be slave. Most heartily do we thank you for keeping this irrepressible conflict before the people in your travels, and never have you presented it with more persuasive accuracy than in your recent speeches.

The laborers of this country must own themselves, and the least we can do to effect this object is, in the language of our Presidential candidate, "to arrest the further spread of slavery, and place it where the public mind shall rest in the belief that it is in the course of ultimate extinction."—Speeches like yours are the most effective weapons in the warfare for this extinction. We want no hostile incursions, servile insurrections, nor any illegal act of any kind. They will only retard the progress of the Anti-Slavery movement. All that is wanted is a corrected Southern opinion, reformed legislation, a rightfully interpreted Constitution, and that you, sir, shall remain in the Senate to originate and advocate measures until this Nation shall claim you from the service of the State of New York, and make you the successor of one, whose proverbial honesty and published opinions made him the nearest to your own personality that the late Convention could get, without depriving the country of your invaluable services in the Senate.

Mr. Seward, amid enthusiastic cheering, replied as follows:

MR. MAYOR AND FELLOW-CITIZENS:—The exaggerated terms in which you have spoken of such public services, recent and past, as I have rendered will not mislead me. I have a stern conscience, the approval of which I must seek, and which must be the guide for my own conduct. But I should be ungracious to you, and ungrateful to my fellow-citizens, who have honored me with this magnificent manifestation of their respect and esteem, if I did not freely and openly confess my entire satisfaction with its sincerity and my appreciation of the affection and respect which it testifies. [Applause.]

How deeply, how sincerely that respect and affection touch me, there is nobody but myself can know, and I, unfortunately, can never tell. [Applause. A voice "Louder!"] I beg pardon, my dear fellow, I can speak no louder; I have been speaking for a month. You must take me as I am. [Applause, "good," "good."] If I had possessed the power, I should have done so more than I have already elsewhere. ["It's all right.—You've done your duty."] Besides, I have some duty to perform to-morrow.

MR. MAYOR AND CITIZENS OF CHICAGO:—I may say in almost one sentence all that I can claim for myself. From my earliest experience as a citizen of this country, I was not ignorant of the advance of empire across the Alleghany mountains and into the valley of the Mississippi. The number of States which, since my manhood, have been added to the Federal Union, and their location in the West, have scarcely been more certain in my knowledge, than they were in my conjectured anticipation at that early period.

And I knew another lesson which has been a guide to me throughout my experience as a representative man; I knew that, whereas in other countries commerce and those engaged in it had been the controlling element and the controlling power of modern civilization; yet that in this country and under the circumstances surrounding us, commerce was not to be the controlling power, and the men who conducted the superb mercantile emporiums of the country were not to be its managers; but that insomuch as our system must educate the producers and train them to be the ruling power of this nation, I have never been ignorant—never for a moment been unconscious—that the political power which was to direct the destinies of this nation, was to be exercised by those of our countrymen who should cultivate the soil, [applause] not those who sell its products in the market. [Applause. "Good, good."]

Even the wayfaring man, though a fool might know where those people who [illegible] till the soil would be found. [illegible] should be found nowhere else but [illegible] they could be [illegible] Alleghany Mount[illegible] westward from the [illegible] the Pacific [illegible] ains and eastward from [illegible] British [illegible] Ocean, somewhere between [illegible] America on one side and the [illegible] ulf of Mexico on the other. This being so, it was the simplest duty of policy to take care that those people who were to till the soil—this American soil—and in the act of cultivating it, become the rulers of the destinies of this mighty nation, should, in the first place, be located, as far as circumstances would permit, not upon slave soil, but upon free soil—[great and prolonged applause]—that they should not be owned by masters or owners, but that they shou'd own themselves. [Renewed applause]—And if my public life, my present system—that which I commend to the acceptance of my countrymen with such ability as I may have—need any exposition whatever, there is the simple truth of the whole of it.

Neither you nor I have any power to disturb those of our fellow-citizens in the Southern States who maintain a different system; and having no power we have no responsibility. We need not fear that right, and justice, and humanity, will not prevail in this world, even though we are not in the field where battles are to be fought, or instructions are to be given to secure their triumph. There have been already six of the thirteen original States of this confederacy redeemed by the citizens of those States themselves, without interference or intervention from abroad. All the others that remain may be left under the influence—the increasing influence of Christianity, to say nothing of policy, to deliver themselves from that curse from which we have been saved without any interference of our own. [Applause.]

Non-intervention in the States by free men is but half, however, of the motto of the Republican party—non-intervention by slaveholders in the territories of the United States is the residue. [Great cheering.]

And so, having abused your hospitality and kindness by setting forth a creed, which I had better preserve for another occasion, I beg you to accept my apology for failing to deliver you a longer address now, and accept my best wishes that you may repose in peace and quiet to-night, and to-morrow, although it is said to be a great loan to ask, I will pray you to lend me your ears, and I will try to see how many of your ears I can fill. [Laughter and hearty applause.]

Mr Seward retired amid long continued and deafening cheers, and was succeeded by Gen Nye, of New York, who kept the crowd in alternate shouts of applause and roars of laughter with his eloquent picture of the progress of Republicanism and scathing of the bogus Democracy. Hon. C. B. Denio, of Galena, followed in a telling vindication of free labor, which was received with constant bursts of applause. Frank Lumbard kept the crowd in good humor, with his stirring Republican songs, chorused by the multitude.

After the music, S. P. Hanscom, Esq., of New York, made a brief, but effective adress, and the immense crowd separated to meet again to-day, reinforced by the thousands and tens of thousands, who have come in from the prairies to swell the army of Republican freemen.

Senator Seward's Speech at Lincoln's Home Yesterday.

From the Chicago Journal of Tuesday.

At Springfield yesterday, though but a brief notice was given that Gov. Seward was on the train, a large concourse was at the depot.

In obedience to the call of the people. Mr. Seward appeared on the platform of the car, and after alluding to his tour in Kansas, said:

I am happy to express, on behalf of the party with whom I am traveling, our gratitude and acknowledgment for this kind and generous reception at the home of your distinguished fellow citizen, our excellent and honored candidate for the CHIEF MAGISTRACY of the United States, (Cheers.) If there is in any part of the country a deeper interest felt in his election than there is in any other part, it must of course be here, where he has lived a life of usefulness, where he is surrounded by the companions of his labor and his public services.

We are happy to report to you that, although we have travelled over a large part of the country, we have found no doubtful States. [Applause.]

You would naturally expect that I should say something about the temper and disposition of the State of New York. The State of New York will give a generous and cheerful and effective support to your neighbor, Abraham Lincoln. I have heard about combinations and coalitions there, and I have been engaged from the beginning to abandon this journey and turn back on my foot steps, whenever I shall find any reason to suspect that the majority which the State of New York will give for the Republican candidate will be less than sixty thousand. [Cheers.]

The State of New York never fails—never flinches. She has been committed from the beginning, and she will be to the end, under all circumstances, to the great principles of the Republican party. She voted to establish this a land of Freedom for you in 1787.—She sustained the ordinance of Eighty-seven till you were able to take care of yourselves. Among the first acts of her government, she abolished slavery for herself. She has known nothing of compromises—nothing of condition or qualification in the great principle, and she never will. She will sustain your distinguished neighbor because she knows that he is true to the Great Principle; and when she has helped to elect him by giving as large a majority as can be given by any half-dozen other States; then you will find that she will ask less, exact less, from him, and support him more faithfully, than any other State can do. This is the way she did with John Quincy Adams. This is the way she sustained Gen. Taylor. That is the way she will sustain Gen. Lincoln. [Loud cheers.]

Upon concluding, Mr. Lincoln, who was present, pressed forward and shook Governor Seward most cordially by the hand, and introduced others, and the train then departed amid enthusiastic cheering.

Continual Changes.

In no former canvass do we remember of so many changes from the Democratic party, and accessions to the Republican ranks. We mentioned a few days since that C. C. Davidson, of Honeoye Falls, heretofore a strong American, had made a speech at a Republican meeting in that place and placed himself among the supporters of Lincoln.

Yesterday the telegraph announced an important change in Erie county from Douglas to Lincoln, and we have heard of many instances like it in our vicinity. It is known to very many Republicans and Democrats here that Lysander Farrar, Esq., a well-known lawyer of this city, who has frequently been nominated by the Democratic party for positions of honor and responsibility, has indicated his purpose to vote for Abraham Lincoln and the Republican ticket. Mr. Farrar, like Mr. Parsons, whose letter was published some time since, comes to this determination from a sense of duty as a citizen, who has no selfish interests to be promoted by attachment to any party.

We know of still another important accession to the Lincoln forces, of a gentleman of eminence in Western New York, but as he may choose to speak for himself at the proper time, we shall not at this time make use of his name.

It is significant that these changes have taken place in rapid succession, showing that the same strong reasons are operating in the minds of thinking men all over the country. Many of them—with scores that do not come to public notice—have taken place since Douglas entered upon his electioneering tour and competed with showmen for the palm of notoriety. It is evident to everybody that he has damaged his own prospects,—if it is possible to damage the most gloomy kind of political prospects which ever hung over any Presidential candidate.—*Rochester American, Sept 29.*

Another Prominent American for Lincoln.

Correspondence of the N. Y. Tribune.

MIDDLETOWN, N. Y., Sept. 28.

Dr. Joseph D. Friend, American candidate for Congress in this (Xth) district two years ago, and a prominent and leading politician of that party, last evening, at a crowded and enthusiastic Republican meeting, in a frank, manly and eloquent speech, announced his intention to support Lincoln and Hamlin, and denounced with scorn the corrupt bargain and sale of Brooks, Hunt & Co. The Doctor was loudly applauded and warmly congratulated for his independence and candor. He was followed by S. W. Fullerton, Esq., in decidedly one of the best speeches of the campaign. M. D. S.

A NICE YOUNG MAN.—The Lynchburg *Virginian* of the 17th is chiefly filled with comments upon a recent speech made in that place by Mr. Roger A. Pryor. Before demolishing him politically, the editor gives the following personal sketch:

"We do not hesitate to accord to Mr. Pryor speaking talents of a high order, as he demonstrated to his auditory on that occasion. He has many of the gifts and graces of the orator. He rounds his periods with winning grace. He is well up in his tropes and metaphors. He is fluent and choice in his language, and ready in his classics. His manner is good, and his appearance prepossessing. His erect and graceful form, handsome and intellectual cast of features, long "Hyperion locks," and [illegible] pleasing attitudes, are striking charac[illegible]teristics of his *personnel*; and we can [illegible] readily imagine how a susceptible young lady, seated in the audience with her lorgnette brought to bear on the speaker, would have become much fascinated and illustrated the possibility of such a thing as 'love at first sight.' But love and politics are very different things; and while Mr. Pryor might have won a convert in a blushing maiden, we feel every confidence that he won no political convert to his questionable faith on the occasion of which we write.—The pyrotechnics of oratory may dazzle, but they will scarcely convince. The flowers of rhetoric may please, but they will not convert, unless founded on truth and right."

MR. DOUGLAS was announced to speak in Cincinnati night before last, and of course a large crowd congregated to hear him. The display was a good one, but of the main feature of the evening the *Gazette* says in guarded expression:

"The chief disappointment was in Douglas himself. Although announced to speak at half past seven o'clock, he did not reach the stand until after *ten*, and then made a speech, properly so called. He was evidently not in a condition to fulfill public expectation in that respect. His failure was of course a mortifying one to his friends, after so long counting upon a magnificent speech."

Stephen had better seek his mother again.

DEATH OF A NOTED TROTTING HORSE.—On the 16th inst. the well-known Kentucky trotting horse, Zach. Taylor, recently re-named Bayonne, was being driven at a pretty good trot on the speed track at the National Fair, Cincinnati, when he suddenly reared and fell over upon his side, "dead as a herring red." He was the property of Mr. Ashley, of Nunda, N. Y. He was eighteen years old, and has seen much hard service, having trotted many races. His best recorded time was 2:35, but he is said to be one of the quickest horses known to the half mile post.

Another Convert—A Breckinridge Candidate for Assembly Declares for Lincoln.

From the New York Evening Post.

About two weeks since, the Breckinridge Democrats of the Third Assembly District, Brooklyn, nominated Mr. Oliver T. Beard for the Assembly. Mr. Beard has always been identified with the Democrats, since he took any part in politics, and has been known as a consistent hard shell of the most adamantine quality.

At a meeting of the Republicans of the Tenth Ward last evening, however, the people were quite taken by surprise at the announcement by the President of the meeting, Mr. Winslow, who said he had a Breckinridge Democrat to present to them—a Democrat who had been nominated for a responsible position by his party, but had become convinced that the interests of the country demand the success of the Republicans. He then introduced Mr. Beard, who was received with great enthusiasm. Mr. Beard said that while he had always been a Democrat, he had alwyas taken the liberty to think for himself, and had been a Democrat because of the great principle on which he believed that party was founded. But now the so called Democracy had deserted that principle, and it was his duty to abandon them, if he would remain true to it.—He had determined, under the circumstances, to do all in his power to elect the only honest man who had been nominated for the Presidency; and that man was Abraham Lincoln.

MR. THOMAS TOWNDROW, of New York, has invented a newspaper file, which is more convenient than any other we have seen. Most of the files at present in use separate one half of the paper from the other half and are so constructed as to cover some portion of the inner columns. By this invention, the papers are presented in the same form as that in which they appear in a bound volume, and the inner columns are as easily read as any. The file consists of a wooden stem with a handle at the lower end, and a milled screw at the upper end, which stretches a number of small wires along the side of the stem. By a turn of the screw, these wires are slackened so that a paper may be placed under one of them; another turn tightens them, screwing the paper firmly in its place. This file is in use in the *Tribune* office.

INSULTING.—At the Sauk Co. Fair, at Baraboo last week, a disorderly, drunken fellow was expelled from the grounds: whereat he was so vexed that he sought by all the vile epithets in his vocabulary to insult the officer who put him out. Failing to irritate him or disturb his equilibrium, he finally said seriously: "Can't I insult you? Hurrah for Douglas!" This was the last and final resort in the effort to insult the good natured official; with this he wound up the attempt.

THE LEFT END OF A TRUNK.—A few days since one of our railroad agents received a letter from a gentleman in a neighboring city, inquiring for a trunk that had been misplaced or lost, adding by way of description, "The trunk that had 'A. B.' marked on the left end." Whereupon he received from the agent the following answer. "After a careful inspection of all the baggage at the depot, and very mature deliberation thereupon, we are of the opinion that both ends of your trunk are left.

A FRIEND of Mr. Lincoln said to him lately, "I fear you will be greatly troubled with the South." "Yes," replied Mr. Lincoln, "I fear I shall." "Of course," said his friend, "on account of their opposition to you?" "Why," replied Mr. Lincoln, "look at this pile of letters before me. I shall have trouble. They are all from the South, and are applications for office, in case I should be elected."

AN AMERICAN TRAVELLER recently run a large invoice of valuable cigars into England by putting them into a box, under a false bottom, with rattlesnakes on top. The custom officials did not wish to investigate.

A CONVENTION OF BLOOMER DAMSELS is reported to have resolved to wear short dresses or nothing. What an awful thing it would be if they shouldn't wear the short dresses!

WHEN GEN. BARROW asked the assembly last night whether Abraham Lincoln ought to be elected, the affirmative responses perfectly drowned the noses! Tennesseean didn't stop to put the question the second time.—*Rochester Democrat.*

SEVEN THOUSAND men and women were weighed at the Mechanics' Fair in Boston last week. The average weight of the men was 145 pounds and of the women 116 pounds.

WHEREAS, THE MANITOWOC AND Mississippi Railroad Company, a Corporation duly constituted by the laws of the State of Wisconsin, did execute to the subscribers, on the first day of October, in the year A. D. 1856, a mortgage deed, whereby all their railroad, from its eastern termination in the village of Manitowoc, to the Fox river, at the village of Menasha, in the county of Winnebago, being forty-two miles in distance, constructed and to be constructed, together with all and singular the road-way and land procured or acquired, or to be procured or acquired, for rights of way within the limits aforesaid, together with all bridges, fences, privileges, rights, franchises, and real estate owned by said Company for the purpose of said road, or which would be thereafter owned or acquired by the said company, within the limits aforesaid, and all the tolls, income, issue and profits to be had from the same, and all lands which were or should be used and occupied for depots or stations, or which should be thereafter procured therefor, with all the buildings standing, or which should be erected thereon, together with all locomotives, tenders, passenger cars, freight cars, shops, tools and machinery owned or thereafter acquired by the said company, and in any way belonging or appertaining to the said railroad constructed and to be constructed within the limits aforesaid, including all its property, real or personal, pertaining to said railroad, within said limits, and all its rights, credits and franchises thereunto belonging, were conveyed to the undersigned, to be held by them in trust for and as a security to the bondholders of said company, for the payment of the bonds of the company secured by said mortgage deed, and of the interest thereon as it should become due:

And whereas, by said mortgage deed it is provided that if said railroad company should fail, neglect or refuse to pay the principal sum, or any part thereof, or any of the interest on any of the bonds of said company secured by said mortgage deed, at any time when the same shall become due, and payable according to the tenor of said bonds, when demanded, then, at the expiration of sixty days from and after such default, failure, neglect or refusal, in case such principal or interest should then remain unpaid, the subscribers hereto were authorized and directed by said mortgage deed, upon the written request of the holders of at least one-half of the said mortgage bonds issued under said mortgage deed then outstanding unpaid, to cause the said premises, real and personal estate, and property, rights and franchises, or so much thereof as should be necessary to pay and discharge the principal and interest of all the said mortgage bonds as should then be unpaid to be sold at public auction, in the village of Manitowoc, in the State of Wisconsin aforesaid, or in the city of New York, on giving at least ninety days' previous notice of the time, place and terms of such sale, and of the real and personal property and estate, rights and franchises to be sold, by publishing the same in two newspapers of good circulation in each of the cities of Milwaukee and New York, in order to pay and discharge the principal and interest of the mortgage bonds aforesaid, and on such sale to execute and deliver to the purchaser or purchasers thereof a good and sufficient deed of conveyance in fee simple, for the same, which will be a bar against the said railroad company, their successors and assigns, and all persons claiming under them, of all right, interest or claim of, in or to the said premises, real and personal estate and property, rights and franchises, or any part thereof.

And whereas, the interest that became due on the first day of October, 1857, upon all the bonds issued by said company secured by the mortgage deed aforesaid, amounting to the sum of three thousand one hundred and fifteen dollars, was not paid by said Company, of which non-payment more than one-half of said bondholders have given the undersigned due and sufficient written notice, in full compliance with the conditions of said mortgage, and have required them to proceed to sell said property in order to pay the amount due them on said bonds.

Notice, therefore, is hereby given, that in pursuance of the authority in us vested by said mortgage deed, we will expose for sale at public auction, to the highest bidder, for cash in hand, or for the said outstanding mortgage bonds, or any of them, at the Merchants' Exchange, in the city of New York, on the 4th day of December, 1860, at 12 o'clock M. of that day, all and singular the Manitowoc and Mississippi Railroad Company, together with the privileges, rights, franchises, personal property and real estate of said Company, with all the rights, privileges and profits appertaining thereto, in order to pay off the indebtedness of said Company, to said bondholders, and the cost and expenses of this sale.

Bryan's Tasteless Vermifuge.

SAVED! SAVED!

Physicians in vain came again and again,
The dear little angel grew worse,
"'Tis a fatal disease, and we can't give her ease,"

And a cure pointed out right away;
BRYAN'S VERMIFUGE mild, then they gave to the child,
And behold! she was well the next day.

Judson's Mountain Herb Pills.

HOW STRANGE AND WONDERFUL it often seems to us that a medicine composed of simple mountain herbs and roots, should so certainly search out and cure disease. How surprising that the Indians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the ancient inhabitants of Mexico were a strange race, found by the Spaniards living in large cities, and allowing for their strange customs and religion as well civilized as their conquerors. In the words of a writer of some celebrity, "They have perished from the earth, their cities are gigantic piles of ruins, their Kings and Princes so mighty in their life, are forgotten; their ruins and their medicine alone are left." The united testimony of all intelligent persons is that JUDSON'S MOUNTAIN HERB PILLS are the most successful medicine in the world in curing disease.

THE AUTUMN LEAF.

Poor autumn leaf! down floating
Upon the blustering gale:
Torn from thy bough, where goest now,
Wither'd and shrunk, and pale?

"I go, thou sad inquirer,
As lists the winds to blow,
Sear, sapless, lost and tempest-tost,
I go where all things go.

"The rude winds bear me onward
As suiteth them, not me,
O'er dale, o'er hill, through good, through ill,
As destiny bears thee.

"What though for me one summer,
And threescore for thy breath—
I live my span, thou thine, poor man!
And then adown to death!

"And thus we go together!
For lofty as thy lot
And lowly mine, my fate is thine
To die, and be forgot!"

ANECDOTE RELATED BY PRESIDENT MADISON.—I believe the only time I laughed, except at the jokes of greater men than myself, during the period I remained an object of envy to the millions, was on an occasion I never shall forget. I was called out of my bed early one winter morning by a person coming on business of the utmost consequence, and dressed myself in haste, supposing it might be a summons to a Cabinet council. When I came into my private office I found a queer looking man, at least six feet high, with a little apple head, a long queue, and a face critically round, and rosy as a ripe cherry. He handed me a letter from his Excellency the Hon. Peleg Peashell, recommending him particularly to my patronage. I was a little inclined to be rude, but checked myself, remembering that I was the servant of such men as my visitor, and that I might get the reputation of an aristocrat if I made any distinction between man and man.

"Well, my friend, what situation do you wish?"

"Why-y-y I'm not very particular; but somehow or other, I think I should like to be a Minister. I don't mean of the Gospel, but one of them Ministers to foreign parts of the world."

"I am very sorry indeed there is no vacancy just now. Would not something else suit you."

"Why," answered the apple-headed man, "I wouldn't much mind being a Controller or an Auditor, or some such thing."

"My dear sir, I am sorry, indeed, but it happens, unfortunately, that all the three situations are filled. Would you not take something else?"

My friend stroked his chin, and seemed struggling to bring down the soarings of his high ambition to the present crisis. At last he answered:

"Why, yes, I don't care much if I get a good Collectorship, or Inspectorship, or Surveyorship, or Navy Agency, or anything of that sort."

"Really, my good Mr. Pippenny," said I, "I regret exceedingly that not only all these, but every other place of consequence in the government is at present occupied. Pray think of something else."

He then, after some hesitation, asked for a clerkship, and finally the place of messenger to one of the public offices. Finding no vacancy here he seemed in vast perplexity, and looked all around the room, fixing his eye finally on me, and measuring my height from head to foot; then putting on one of the drollest looks that ever bedecked the face of man, he said:

"Mister, you and I seem to be built pretty much alike—havn't you got some old clothes that you could spare?" Oh, what a falling off was there! from a foreign mission to a suit of old clothes, which, the reader be assured, I gave him with infinite pleasure, in reward for the only honest laugh I enjoyed for years afterward.

SENSIBLE.—On Thursday evening last, a couple of young folks called on Esquire F., and after considerable hesitation requested to be united in the "holy bans of matrimony," which request the Esquire at once proceeded to comply with. The bride, from the lateness of the hour, and the peculiar nature of the call, thought some explanation necessary, and so very innocently remarked: "We came from Columbia county to attend the Fair, but finding the taverns all full, and no place for Alex. to sleep, we concluded to get married, *so he could sleep with me!*" Such a wife as that is worth having, and we will bet one of our big squashes that when they visit the Fair next year there will be *three* of them.—*Mad. CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm,

as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character

Pure Ohio Catawba Brandy!

THE UNDERSIGNED HAS BEEN DULY appointed the only and sole agent for this truly

PURE MEDICINAL BRANDY

For the City of Milwaukee. This Brandy has been thoroughly analyzed by the N. Y. State Assayer, Dr. A. A. Hayes, Chemist, and Prof. Upman Sheppard, Charlestown, S. C.; Prof. T. R. Chilton, New York; Prof. Pratt, of Savannah; Prof. Lamont, J. R. Nichols, of Boston; and Dr. Cox, of Cincinnati; and pronounced by them to be strictly pure, and an excellent stimulant in all cases where pure Brandies are indicated.

The manufacturer of this fine Brandy guarantees (*or will refund the money*) that it will cure

CHOLERA INFANTUM,
SUMMER COMPLAINT WITH CHILDREN,
DIARRHŒA,
BOWEL COMPLAINT,
DYSPEPSIA,
FLATULENCY,
CRAMP,
COLIC,
LANGUOR,
LOW SPIRITS,
GENERAL DEBILITY AND NERVOUSNESS,

Physicians are now prescribing it in the place of Paragoric—not having the *deadening* effect of that medicine upon the brain.

The physicians in each city, town or village in the State are solicited to apply to the undersigned, who will give them a bottle free of charge, to try before prescribing.

Dose for an infant six weeks old, one teaspoonful, diluted in two tablespoonsful of cold water, and given by the teaspoonful every five minutes until relief is effected.

Adults and children in proportion.

The want of pure Medical Brandy has long been felt in this country.

The properties contained in this Brandy are more stringent than French Brandies. This the manufacturers claim are the merits, and challenge the world to disprove these facts.

It is not too Much to Say

SINCE ALL,

OLD AND YOUNG

Affirm its Truth,

VIZ: THAT PROF. WOOD'S HAIR RESTORATIVE will preserve *infallibly* the *growth* and *color* of the hair, if used two or three times a week, to any imaginable age. Perfectly restore the gray, cover the bald with nature's own ornament, the hair; make it more soft and beautiful than any oil, and preserve the scalp free from all disease to the greatest age. Statesmen, Judges, Attorneys, Doctors, Clergymen, Professional men, and Gentlemen and Ladies of all classes, all over the world, bear testimony that we do not say too much in its favor. Read the following, and judge:

HICKORY GROVE, St. Charles Co., Mo.,
November 19, 1857.

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Hair Restorative; we did so with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are Yours respectfully,
GEORGE W. HIGGINBOTHAM,
SARAH A. HIGGINBOTHAM.

PROF. WOOD—Dear Sir: My hair had, for several years, been becoming prematurely gray, accompanied by a harshness which rendered the constant application of oil necessary in dressing it. When I commenced using your Hair Restorative about two months ago it was in that condition; and having continued its use till within the last three weeks, it has been turned to its natural color, and assumed a softness and lustre greatly to be preferred to those produced by the application of oils or any other preparation I have ever used. I regard it as an indispensable article for every lady's toilet, whether to be used as a Hair Restorative or for the simple purpose of dressing or beautifying the hair. You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it

MRS. C. SYMONDS,
Cincinnati, Ohio, Feb. 10, 1857. 114 Third st.

WELLINGTON, Mo., Dec. 5, 1857.

PROF. WOOD—Dear Sir: By the advice of a friend of mine, who had been using your Restorative, I was induced to try it. I had the fever, some time last May, and nearly every hair in my head came out. Now my hair has come in a great deal thicker than ever it was. Nothing but a duty and sympathy that I feel to communicate to others who are afflicted as I have been, would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative.

Yours respectfully,
A. R. JACOBS.

The Restorative is put up in bottles of three sizes, viz: Large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 312 Broadway, New York, (in the great N. Y. Wire Railing Establishment,) and 114 Market St., St. Louis, Mo.

DR. MOTT'S

CHALYBEATE RESTORATIVE

PILLS OF IRON.

AN APERIENT AND STOMACHIC preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world, as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent Hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to

MOFFAT'S

Life Pills and Phœnix Bitters!

THESE MEDICINES HAVE NOW been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the Globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

The following are among the distressing variety of human diseases in which the

VEGETABLE LIFE MEDICINES

Are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of respiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

SCURVY, ULCERS and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS by their alterative effect upon the fluids that feed the skin, and the morbid state which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two in the worst cases.

PILES.—The original proprietor of these Medicines, was cured of Piles, of 35 years standing by the use of the LIFE MEDICINES alone.

FEVER AND AGUE.—For this scourge of the western country, these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure of these Medicines is permanent—TRY THEM, BE SATISFIED AND BE CURED.

BILIOUS FEVERS AND LIVER COMPLAINTS.—General Debility, Loss of Appetite, and Diseases of Females—the Medicines have been used with the most beneficial results in cases of this description: King's Evil and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

MERCURIAL DISEASES.—Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

DR. S. O. RICHARDSON'S

Sherry Wine Bitters!

The Celebrated New England Remedy

FOR HABITUAL CONSTIPATION,

JAUNDICE, FEVER AND AGUE, GENERAL DEBILITY, AND ALL DISEASES ARISING FROM A DISORDERED STOMACH, LIVER, OR BOWELS.

IT IS A MEDICINAL TONIC THAT most persons require during the summer season. Try its virtues all you who are debilitated and require medicinal aid.

The following is from the best authority. Mr. Stanford is a merchant, well known, and now, to see him, you would behold a man the picture of health

BLOUNTSVILLE, Henry Co., Ind., May 4, 1860.
MESSRS. J. N. HARRIS & CO., Cincinnati, O.

Gents:—Your Agent visited me to-day, and proposed leaving me a supply of your Richardson's Sherry Wine Bitters on sale. I hailed them as an old and valued friend, for such they proved to me. After hearing a statement of my case, and experience with the bitters, you will not think me enthusiastic when I say that I attribute my present good health, *even life itself*, to the merits of your truly invaluable medicine. Some three years since I was attacked with great nervous debility, which was soon followed by palpitation of the heart, of the most severe and prostrating character. At the expiration of six months I was reduced to a mere skeleton, and was satisfied if relief did not soon come I must pass away. Two physicians attended me a good portion of the time, but their efforts to afford relief were of no avail. Finally one of them suggested a trial of the "Sherry Wine Bitters," and to my great satisfaction, their effects upon me were most beneficial from the start. After using about a dozen bottles I was completely restored, and am now in robust health. You may expect good sales of me, as I can recommend them on their merits.

You are at liberty to make use of this statement as may best suit you, as I give it freely, and with a hope that others may be induced to try it who are suffering as I was. With all respect, I remain,
Yours truly,
THOMAS STANFORD.

VEGETABLE

PAIN KILLER.

WE ASK THE ATTENTION OF THE trade to this long tested and unrivaled

FAMILY MEDICINE.

It has been favorably known for more than twenty years, to be the

ONLY SURE SPECIFIC

For many diseases incident to the human family.

Internally and Externally

It works equally sure.

What *stronger proof* of these facts can be produced than the following letter received *unsolicited* from A. W. Curtis:

ROMEO, Macomb Co., Mich., July 9, 1859.
MESSRS. J. N. HARRIS & CO.

Gentlemen:—The confidence I have in Perry Davis' Pain Killer as a remedy for Colds, Coughs, Burns, Sprains and Rheumatism, for the cure of which I have successfully used it, induces me to cheerfully recommend its virtues to others.

A few months ago I had recourse to it to destroy a felon; although I had never heard of its being used for that purpose; but having suffered intensely from a former one, and having no other remedy at hand, I applied the Pain Killer freely for about fifteen minutes at evening, and repeated the application very briefly the next morning, which entirely destroyed the felon, and increased my confidence in the utility of the remedy. Yours truly,
A. W. CURTIS,
Minister of the Wesleyan Methodist Church.

THE PAIN KILLER

Has been tested in every variety of climate, and by almost every nation known to Americans. It is the almost constant companion and inestimable friend of the missionary and the traveler—on sea and land—and no one should travel on our lakes or rivers without it.

Be sure you call for and get the genuine Pain Killer, as many worthless nostrums are attempted to be sold on the great reputation of this valuable medicine.

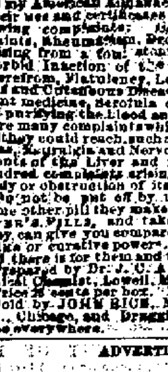
Ayer's Cathartic Pills.



THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.

Movements of the Prince.

HARRISBURGH, Pa., Oct 3—3 P. M.

The Prince was serenaded during the night by the Capital Band. Long before the hour, when he was announced to leave the hotel, thousands of people had congregated to get a glimpse of him, a large portion of whom were ladies. At 9 o'clock, the cortage emerged from the hotel, and the thousands sent up shouts of applause, while the ladies waved their handkerchiefs.

The Prince was driven in an open carriage, drawn by four beautiful greys, through Front street, on the bank of the Susquehanna, to the Capitol, followed by other carriages containing the committee. They alighted at the Capitol, and paid a visit to the Governor in his private apartments. The Governor addressed the Prince, in appropriate terms.

The Prince briefly replied, expressing his sincere sense of the high honor conferred on him in the Capitol of the great State of Pennsylvania.

The Prince and suite, with the Governor, then visited the Capitol buildings, and after viewing the scene from the dome of the Capitol, the party started for Washington.

BALTIMORE, Oct. 3—9 P. M.

The Prince arrived here at half-past one, and passed through Baltimore street, on the way to the Washington depot. The streets through the route, which was a lengthy one, were thronged. He was received at the depot by the Mayor and a delegation from the City Council. As he alighted, the band struck up "God Save the Queen."—The Prince and suite rode in open carriages. The French Minister, D'Armer, says that there is nothing in the state of European politics to prevent the usual months furlough being given on the 1st of Oct.

Arrest of Murderers.

FAYETTEVILLE, ARK., 3d—9 P. M.

The murderers of the two persons whose bodies were found on mountain road, between this and Van Buren, on the 23d, were brought here last night. This morning a large crowd collected and insisted on hanging them at once, but by repeated efforts of some of the most influential citizens, the crowd was finally prevailed upon to allow his captors to take him back to the county in which the deed was committed. He will probably be hung to-day or to-morrow.—His wife is in custody as an accessory.

COMMERCIAL.

MONETARY.

WEDNESDAY P. M., October 3, 1860.

The storm to-day greatly checked the progress of business to-day, and consequently money matters were quiet. Exchange remains steady, selling by the banks at ¾ ⅌ cent premium, and buying at ½ premium.—The offerings of produce paper were comparatively light, and Currency easy.

CHICAGO MONEY MARKET.

The *Times* of this morning says:

The demand for Eastern Exchange was not so pressing to-day, and prices were lower. We heard of some large transactions at ¾ ⅌ cent from outside parties, and ½ ⅌ cent from bankers. The demand for Currency is large, but the supply is ample to meet the requirements of the business community. The remittances from the country are large, and our merchants have but little need to resort to the discount houses for assistance to enable them to meet their maturing paper.

NEW YORK MONEY MATTERS.

We have the following by telegraph from New York to-day, in reference to money and stocks:

Money in moderate demand and rates very firm. Stocks dull and lower. The receipts of wheat to-day were 77,529 bushels—a rather smaller amount than was looked for. The market opened at the closing prices of yesterday afternoon, but soon declined ½c, buyers refusing to go outside of 91c for No. 1 spring in store. On 'Change an effort was made to establish a still further decline of 1c, but sellers pretty much all holding back, shippers came into the market towards the close and bought freely at 91c, and 89c for No. 2. The storm somewhat restricted business, and the sales in the aggregate were inside of 60,000 bus, at 90@91½c for No. 1 spring in store; 88@89c for No. 2, and 92½@94c for Club, the market closing firmly at 91c for No. 1, and 89c for No. 2. There was a good demand for flour, chiefly for the Boston and Portland markets, and about 1,890 bbls changed hands at $4,60@4,75 for fair to choice Extra; $3,50@3,60 for country superfine, and at $5@5,12½ for white winter.

The arrival of the steamer *Connaught*, with Liverpool advices of the 25th, is telegraphed. The weather was more favorable for the crops. In the Liverpool market flour is quoted firm and steady, and wheat steady at previous rates. And advance of 1@2s ⅌ qr on wheat is reported in the London market.

Grain freights declined ½@1c, vessels being freely offered at 12½c for wheat to Buffalo. The brigs *Fox*, *D. Ferguson*, and schrs. *W. G. Grant* and *Lookout* were chartered at this rate.

CINCINNATI MARKET, OCTOBER 1ST.

The *Gazette* sums up the doings in Monday's market as follows:

Flour continues very dull, and the demand local and quite limited, but holders seem unwilling to make any concessions, so that prices remain unchanged; but they are, to a great extent, nominal, at $5@5,10 for superfine, and $5,15@5,50 for extra to fancy.—One lot of extra sold at $5,05.

Wheat dull, and prices unsettled. Any quotations we would give would be merely nominal. Corn unchanged, and in demand at 50c for ear. Oats steady, at 30@31c. Rye 30@31, and in good demand. Barley dull and maltsters holding off for lower prices.—Prime fall may be quoted at 90@100c, and the lower grades 90 down to 80c. There was more inquiry for Bacon shoulders to-day, and 8¾ was pretty freely offered, but holders refused to take less than 9c, though 25 hhds sold Saturday evening at 8¾c. Nothing transpired, regarding other articles, and the market must be regarded dull and prices nominally unchanged.

MARINE ITEMS.

NO LIGHTS.

Complaint is now frequently made by captains of steamers of neglect, on the part of vessels they meet at night, in exhibiting lights either in the place assigned or in the rigging. Capt. NEWMAN, of the propeller *Mt. Vernon*, informs us that on his recent trip up he passed, while in Point au Pelee passage, and also at the mouth of Detroit River, lying at anchor, vessels without lights. This is a serious and lamented charge. The recent calamity of the ill-fated *Elgin*, we should think, would arouse vessel captains to a sense of their duty and the danger they are likely to incur, even if the penalties of the law does not.

THE SCHOONER HUBBARD.

The schooner *Hubbard* was not sunk as reported by some of the Detroit papers last week. She met with an accident on Lake Michigan, but was able to return to Chicago for repairs.

ANOTHER CHANGE.

Capt. G. H. RYDER, late in command of the propeller *Marquette*, has been appointed captain of the steamer *City of Cleveland*, while Capt. GOLDSMITH, late of the *City of Cleveland*, takes command of the *Marquette*.

NEW VESSEL.

A new vessel of substantial build and good model lay at anchor in the stream during Friday and Saturday. She was built at Newport, on the river St. Clair, by Rice & McDole, measures 111 tons, and is called the *John Rice* after one of the above named firm who are also owners. She has been chartered by J. W. Hall of the Detroit shipping Office to take a cargo of grain from Chatham to Buffalo at 7½c freight.—*Detroit Tribune.*

STRUCK A ROCK.

The propeller *Comet*, which passed down yesterday from Green Bay, when near the Sister Islands, coming down the Bay, struck a rock or sunken anchor, which partially tore away her forefoot, causing her to leak considerable though not enough to prevent being kept free by her hand pumps. A canvass jacket was placed under her bows which had the effect of lessoning the leakage. She proceeds on her voyage to Buffalo.—*Detroit Advertiser of Monday.*

PROPELLER GALENA DISABLED.

The propeller *Galena*, of the Buffalo, Cleveland and Chicago line, was yesterday disabled when about 40 miles east of this port by the bursting of her cylinder. She was on her upward passage from Buffalo. Fortunately the engineers were not in the engine room, and no one was injured. The cylinder head was thrown off, and the cylinder itself broken. The *Galena* was towed into port last evening by the propeller *Rocket*.—*Cleveland Herald.*

THE ATTENTION OF THE YOUNG men of Wisconsin in particular, and of the Western and North-western States generally, is respectfully called to the advantages which this Institution offers for the acquisition of a knowledge of

BOOK-KEEPING

And commercial pursuits generally. It is now in a flourishing condition, and is working under a CHARTER OF INCORPORATION. The rooms are large and commodious, and are fitted up in splendid style. On introducing the subject to the student, he is led carefully, step by step, through the fundamental and general features of the science; and when these are fully realized, he is required to embark into a career of general speculation and merchandising, framing and adjusting contracts, purchases, sales, &c., &c.; making the necessary entries in the principal and auxiliary books, in precisely the same manner and order as they are made by the skillful Book-Keeper, in the counting-room of actual business.

Thus when the work is completed, the Student finds himself, not a mere theoretical, but a practical accountant, being fully conversant with every branch of this interesting and important science, as applied to General Mercantile, Wholesale, Retail, Commission, Importing, Exporting, Foreign and Domestic Shipping, Stocks, Exchange, Banking, Manufacturing, Mining, Steamboating, Railroading and business of Compound or Company speculation, in each of which, he has met with adverse as well as prosperous operation.

The Ladies' Department is entirely separate and tastefully furnished.

RAILWAY MATTERS

DETROIT & MILWAUKEE RAILWAY.

The D. & M. Railway steamships are carrying fully as many passengers under the new arrangement as when making semi-daily trips, and carrying a great deal more freight, as they have twice the time for handling it. Already the blockade of flour has disappeared from their docks here, and they are also able to keep Westward bound freight from accumulating at Grand Haven. The *Milwaukee*, on her outward trip last evening, had 160 tons of freight and seventy passengers, and the *Detroit* brought in over 100 tons merchandize and some fifty passengers. The hour of departure from Grand Haven is 4 o'clock P. M. instead of eight, as we stated yesterday, and of arrival here eleven, although they frequently get in half an hour to an hour earlier. This gives passengers for St. Paul or other points on the Upper Mississippi an opportunity of taking the 1:15 A. M. train on the La Crosse Road, and going directly through without any delay.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately soliable. That most excruciating disease to an affectionate mother,

Nursing Sore Mouth

is cured as if by a miracle: your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

Canker

it extends to the stomach, causing

Dyspepsia

which is nothing but canker on the stomach; then on the intestines and

Kidneys

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

Raw and Inflamed,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

Cure;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

Piles.

How many thousands of poor women are suffering from this disease and pining away a miserable life and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

Mortgage dated April 16, 1856. Recorded May 22, 1856, in Milwaukee County, in Vol. 35 of Mortgages, at pages 22 and 23.

TO ALL WHOM IT MAY CONCERN: Whereas on the 16th day of April, A. D. 1856, Charles F. Zimmermann of the County of Milwaukee, as mortgager, executed and delivered to John Plankinton as mortgagee, a mortgage bearing date on that day, which mortgage was duly acknowledged, so as to be entitled to record, and was recorded in the office of the Register of Deeds for the County of Milwaukee, in the State of Wisconsin, on the 22d day of May, A. D. 1856, at 2 o'clock P. M. of said day, which mortgage was given to secure the payment by said mortgager to said mortgagee, of the sum of nine hundred and seventy-five dollars, as follows, to-wit: two hundred and forty-three 75-100 dollars one year after the date of said mortgage; two hundred and forty-three 75-100 dollars two years after said date; two hundred and forty-three 75-100 dollars three years after said date; two hundred and forty-three 75-100 dollars four years after said date, with interest on each of said sums payable annually at the rate of seven per cent per annum till the principal sum is due, and thereafter at twelve per cent till paid according to the terms of four promissory notes bearing even date with the said mortgage, and executed by said Charles F. And whereas said mortgage contained the usual power of sale, in case of the non payment of the sum secured thereby, or any part thereof:

And whereas the said John Plankinton is still the lawful holder and owner of said mortgage and claims that there is now due to him thereon the just and full sum of eight hundred and twenty-three dollars and forty-four cents:

And whereas default has occurred in the condition of said mortgage by the non-payment of the above mentioned sum of money, being a part of the moneys secured by said mortgage to be paid according to the terms thereof:

And whereas no action or proceeding has been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof:

Now, therefore, notice is hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises, or such part thereof as may be necessary to be sold to satisfy the amount due on said mortgage, with interest and cost and expenses: that such sale will be at public vendue, at the door of the Court House in the City of Milwaukee, in said County of Milwaukee, on the 29th day of September A. ESTABLISHED IN 1847.

CITY AUCTION ROOM.

I AM NOW SETTLED IN MY NEW store, corner of Wisconsin and Main Streets, (Young's Block) a few doors below the Post Office. I have taken this location because I think it preferable for the auction business to any other in the city. Thousands of people pass the corner where I now am, which pass no other in the city, for it is well known that every person goes to the Post Office. I call upon all who have any Dry Goods, Boots and Shoes, Furniture, or Apples, or anything whatever, that they want to dispose of at auction, to send it to my auction room. I will use all my energy to dispose of all goods consigned to me to the best advantage, and prompt returns will be made. I have been engaged in the auction business in this city for thirteen years, and I have tried to do what is right unto all.

I also continue my Land Agency business. My office is in the rear of my store, entrance on Main St. I will attend to all sales of Real Estate either at public or private sale. I will make exchange of real estate with all who want to exchange. Any who have goods to exchange for good real estate in the city or country, I can always get them up a good trade and some money with it; probably there was never a better time to invest in real estate than the present. Prices of lots in our city are very low; lands adjoining our city are exceedingly low, compared to prices four years ago; but these low prices will not last long, and it is generally believed by all who have lived as long in the West as I have, that next spring will see a sudden rise in real estate throughout this city and country.

This is the time to secure you a good homestead. Now is the time to make investments. I call upon all who have property to dispose of to leave a list of the same with me. I keep a register expressly for that purpose, which will be exposed to the inspection of all, from day to day. I shall keep myself posted in real estate, from day to day, as I have done for the last ten years, and will be happy to give information to all who may wish it.

Transportation.

New and Important Arrangement.

To Shippers of Freight TO THE NORTH-WEST.

THE LA CROSSE & ST. PAUL

UNITED STATES MAIL PACKET LINE

Running only between LA CROSSE & ST. PAUL for the transmission of

Passengers, Freight and Mails.

THE PACKET LINE IS COMPOSED of the Steam Packets

Favorite, Frank Steele, Winona, and Aeolian,

Acknowledged to be the best boats for the trade upon the Upper Mississippi, being of lighter draft than any now running.

This Line carries the United States Mail, and has not missed a daily connection since it was established, with the trains, either way, upon the La Crosse & Milwaukee Railroad.

Shippers from Milwaukee will see that this is the most reliable Line of Boats for Freights, as the lightness of draft enables them to make their trip without delay, while by any other route delays are unavoidable.

One of the above Boats will leave La Crosse every evening, on the arrival of the 1:56 P. M. train from Milwaukee, and returning arrive at La Crosse in season to connect with the Express Passenger train, which leaves at 5 A. M.
